Installation method for fitting 10 mm board (diag. A) and 4 mm mirror or glass (diag. B)

construction clearance included in the calculation of the height of board

ATTENTION!
Mirror (4 mm) should be used with a safety backing film. Safety glass (4.5 mm) comprises of two thin layers with a film in-between. Both mirror and glass need fitting gaskets U.

ATTENTION! Remove protective film from aluminium elements (handles, tracks, connectors, etc.) prior to cutting them to the desired size. Film removal will reveal quality issues (eg. scratches)
